

Ceilings

Description

Appearance:

- Colour: white, uniform, RAL 9010 White Finish
- ① In the absence of false ceilings, for large heights for example, white and gray ceilings are permitted provided that they comply with appearance and surface criteria.
- Framing visible or semi-visible
- Avoid streaks and scratches
- False suspended ceilings meet a number of objectives including for fitting of lighting supports, masking for aesthetics, sound insulation, and heat insulation.
- Factors to be taken into account include ease of removal with regard to accessibility and height of installation.

3 principles :

- ② Rockfon type fibreboard panels (mineral wool)
- ③ BA 13 type plasterboard (required without joints)
- ④ metal panels
