

# Renault Store open-office partitions

Renault Store technical specifications

November 2023 - v1

## Renault retail technical specifications

### Renault Store open-office partitions

#### description

As "open office" are intended to allow the customer and the sales advisor to engage in an informal discussion, these partitions allow to maintain some confidentiality

The 2 partitions are placed on the corner of the carpet (usually 2,70 x 2,70 m), in opposite corners of the area.

The long lengths of the partitions are oriented perpendicular to the worktable.

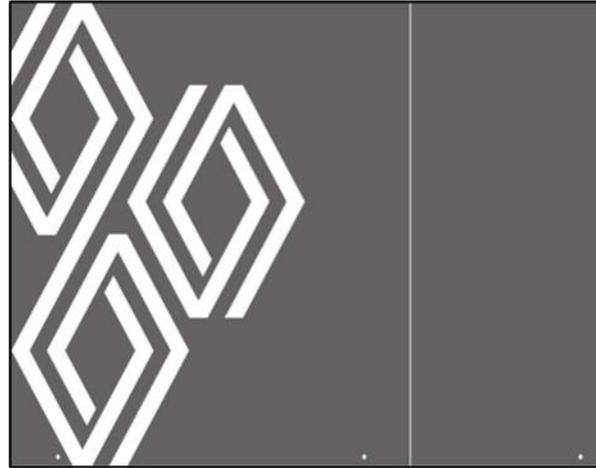

The grey partition is placed on the back of the sales advisor the yellow is placed in the customer side.

## Renault Store open-office partitions - colors

### glass partition

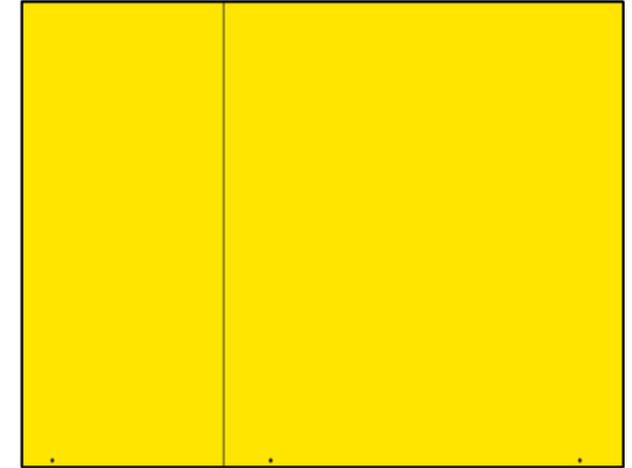

- 1 grey partition with Renault graphical: PMMA 65% grey dual satin (ref. Altuglas 468 18062)
- 1 yellow partition: PMMA yellow glossy (ref. Altuglas 463 11035)
- 12 mm thickness
- quality (Altuglas): "Essential" / R-Life (recycled)

**black**

65% of black / 35% of luminosity

dual satin finished faces

**yellow equivalent to  
pantone 3955 C**

glossy faces on 2 sides

## Renault Store open-office partitions - dimension

### glass partition

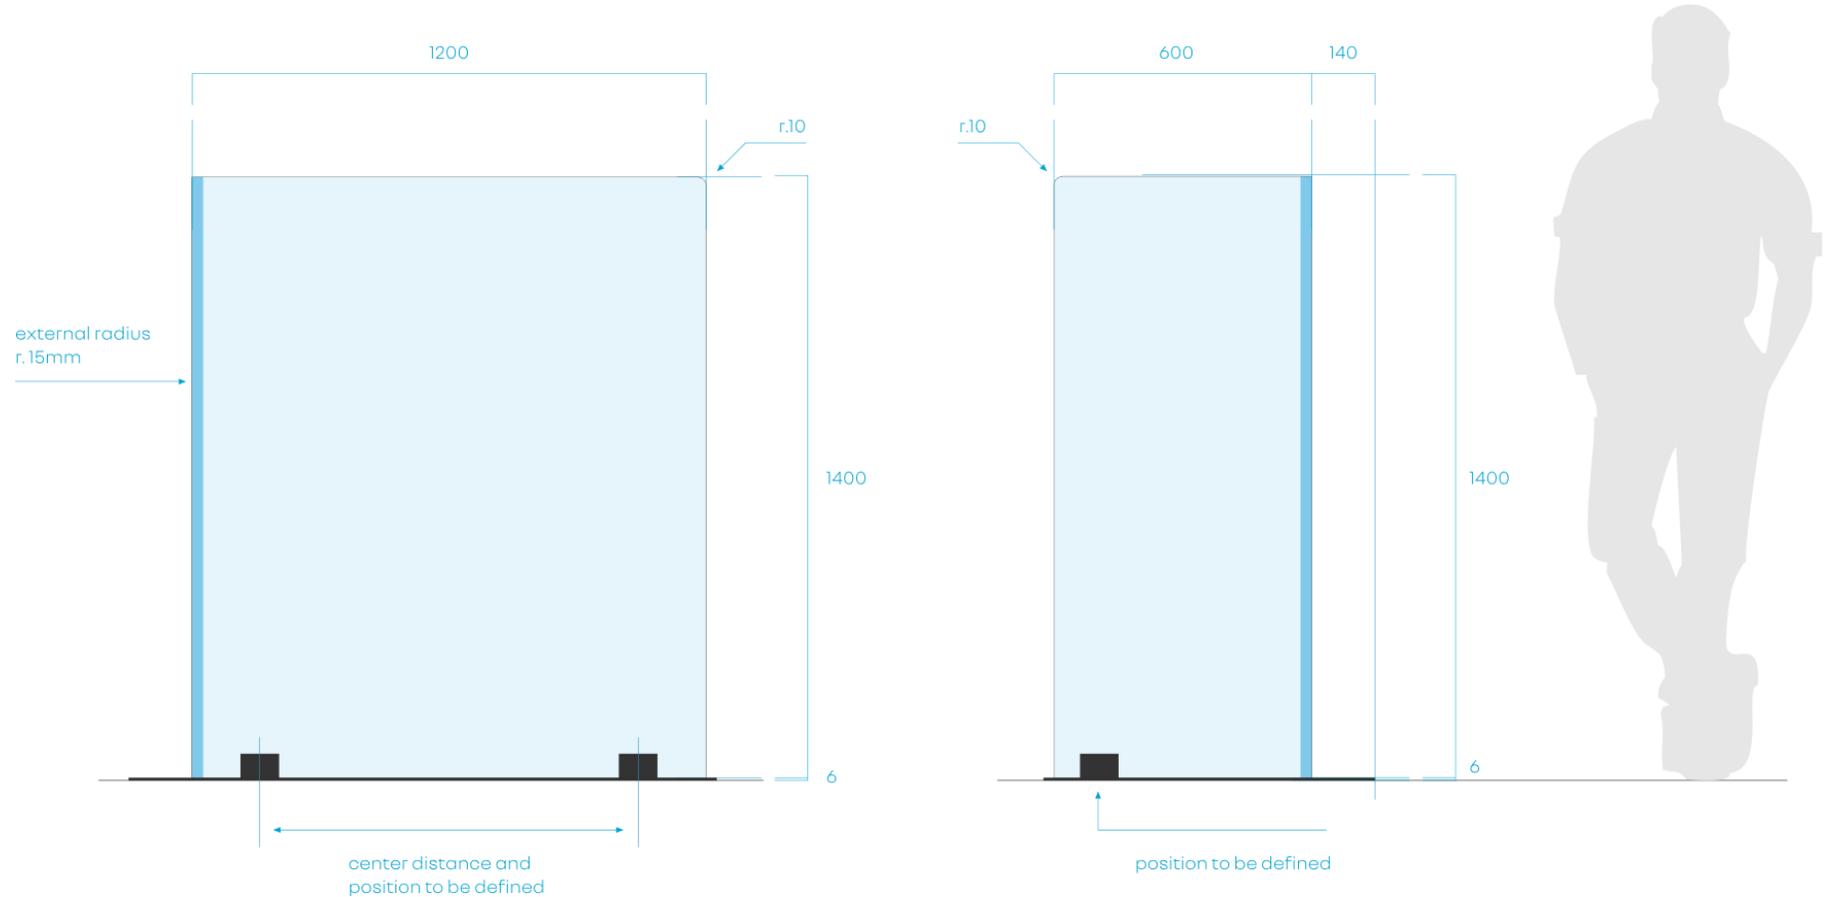

glass partitions are bent at 90° by thermal bending at an angle.

The angle is incised in the internal side to ease the bending.

The edges are polished.

A small corner radius must be done for user's protection.

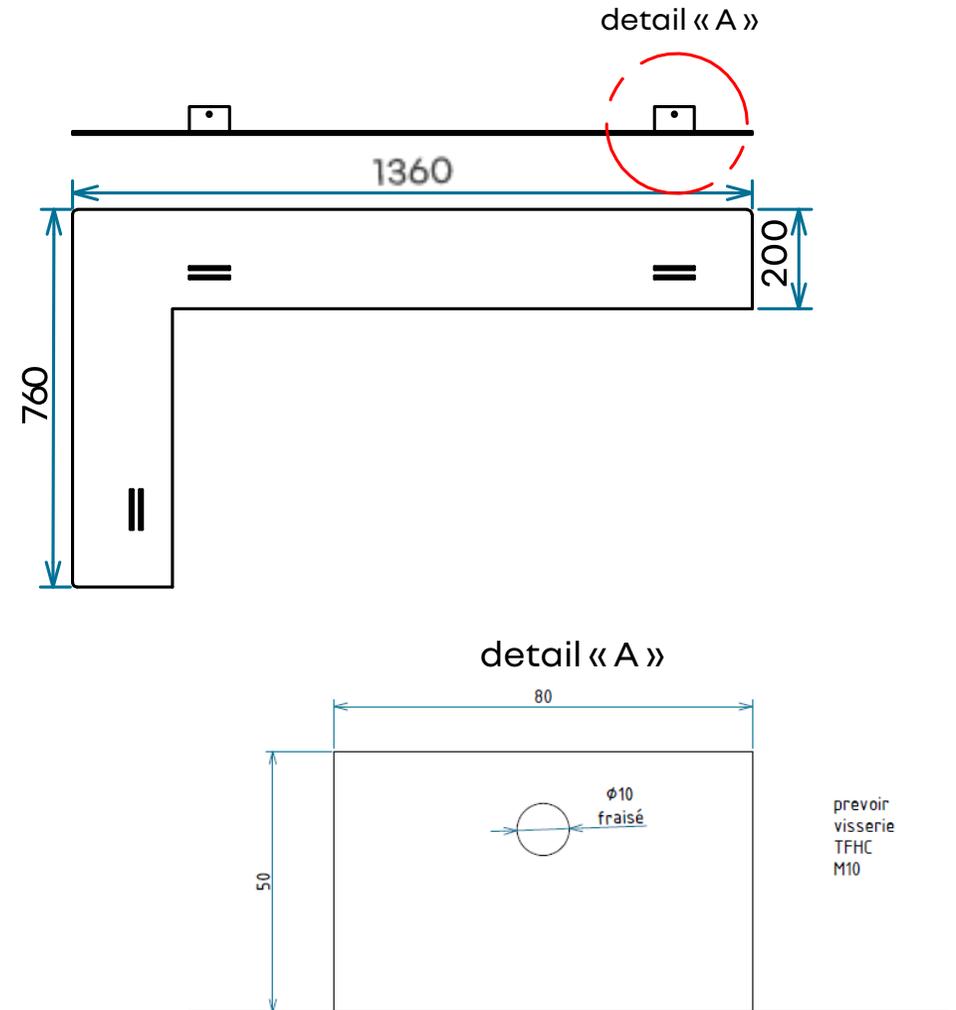

- 1200 x 1400 mm
- 600 x 1400 mm

## Renault Store open-office partitions - basement plate

### basement plate

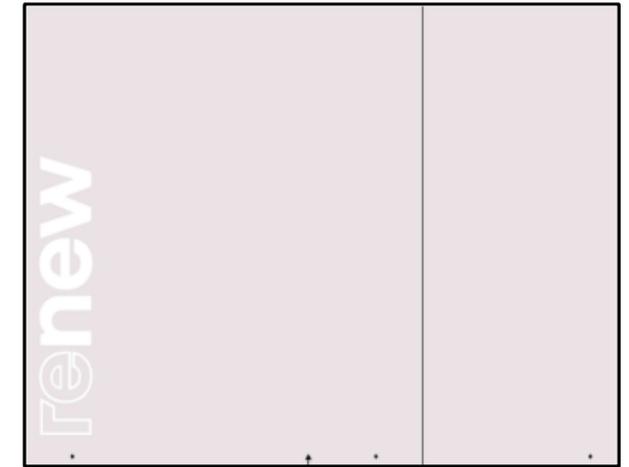

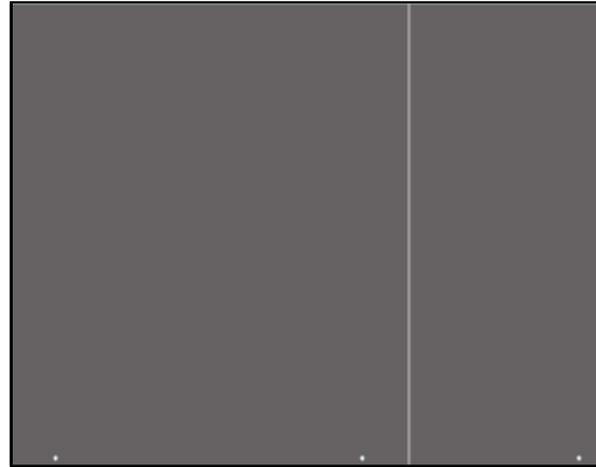

- plate in one piece in flat steel with 6 mm thickness
- fitted with rubber pads
- lacquered finish dark grey RAL 7021 in frosted finish (FTX)
- 2 clamps for the large side and 1 for the small side
- screws must be TFHC M10 - dark grey
- 10 mm diameter hole: oblong countersunk drilling to allow expansion of the PMMA

## Renault Store open-office partitions – renew variant

### glass partition

- 1 grey partition with Renault graphical: PMMA 65% grey dual satin (ref. Altuglas 468 18062)
